The Hunchback of Notre-Dame is a novel by Victor Hugo published in 1831. The French title refers to the Notre Dame Cathedral in Paris, on which the story is centered. The story begins on Epiphany the day of the 'Feast of Fools' in Paris, France. Quasimodo, the deformed hunchback bell-ringer of Notre Dame, is introduced by his crowning as King of Fools. Esmeralda, a beautiful Gypsy with a kind and generous heart. Quasimodo is sentenced to be flogged and turned on the pillory for one hour, followed by another hour's public exposure. He calls for water. Esmeralda, seeing his thirst, offers him a drink. It saves him, and she captures his heart. The enormous popularity of the book in France spurred the nascent historical preservation movement in that country and strongly encouraged Gothic revival architecture. Ultimately it led to major renovations at Notre-Dame in the 19th century led by Eugène Viollet-le-Duc. Much of the cathedral's present appearance is a result of this renovation.
